

I am

The parent
of the child

Society

Relatives of
the child

Police (or) Child
protecting
organizations

I'm trying to

Monitor the
where about the
children

Help in child
monitoring

Guide the child
in disciplined
behavior

Protect the children
from dangers as
much as possible

But

It is hard to
monitor the child

There is poor
performance of family
and school in
protecting the child

There is lack of
child monitor

Children are prone to
accidents and safety
of child is very critical

Because

There is absence
of child monitor

There is a
collaboration
between them

Because of
the schools

Children cannot
protect
themselves

Which makes me feel

Insecurity
for the child

Frustration

Loss of believes
in school

Inabilty of
protecting the
child
